This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Mechanical and Industrial Engineering Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.

ME403-004 – Mechanical Systems Design I

Meeting Times & Location:

T, Th 9:00 – 10:20am

Synchronous Online via Webex

Course Description:

Lectures and projects covering problem solving methodology in the design, analysis, and synthesis of mechanical and thermal systems.

Prerequisites:

ME 304, ME 305, ME 312, ME 316

Optional Textbooks:

“The Engineering Design Process”

A. Ertas, J. Jones

John Wiley & Sons, 1996, 2nd Edition

“The Mechanical Design Process”

David G. Ullman

McGraw Hill, 2010, 4th Edition

Instructor:

Mr. Anthony Glick

Office hours: Tu: 3:00 – 4:00pm, Th: 10:30 – 11:30am, via Webex or by appointment

Email: aglick@njit.edu

Course Objectives:

Demonstrate an understanding of the phases of the methodology of design.

Topics:

1. Weeks 1 – 3: Introduction/Engineering Design/CAD

2. Weeks 4 – 5: Modeling & Simulation/Material Selection

EXAM 1: End of Week 5

3. Weeks 6 – 8: Structured & Unstructured Problems

4. Weeks 9 – 10: Engineering Economics/Design Optimization

EXAM 2: Week 11

5. Weeks 11 – 12: Reliability

6. Weeks 13 – 14: Communication

7. Week 15: Ethics

Grading:

Final Project (Design Proposal): 30%

2 Examinations: 22.5% each

Homework: 25%

Policies:

Homework submitted after due date will be penalized as follows: ½ credit if one week late and no credit beyond one week.

ProctorU Record+

NJIT policy requires that all midterm and final exams must be proctored, regardless of delivery mode, in order to increase academic integrity. Note that this does not apply to essay or authentic based assessments. Effective beginning Fall semester 2019, students registered for a fully online course section (e.g., online or Hyflex mode) must be given the option to take their exam in a completely online format, with appropriate proctoring.

In this course you will be required to use the following proctoring method to ensure academic integrity for exams. Please see NJIT's response to questions about online proctoring. See below for more information about how exams will be proctored in this course.

ProctorU Review+ uses an automated proctoring solution via AI during the exam, followed by a full review from a ProctorU proctor. Similar to Respondus Monitor, you will be recorded during the exam. After completing their review, a proctor sends an incident report to the instructor if any potential academic integrity violations occur. You will access your exam by installing the ProctorU browser extension in either Chrome or Firefox. After logging into the browser, you can access your exam and proceed to the ProctorU startup sequences.

Students will need to make a test-taker account at proctoru.com.

In order to use this ProctorU service, you will need the following:

- High-speed internet connection
- Webcam (internal or external)
- Microphone and Audio (internal or external)
- Windows or Apple Operating System
- NJIT ID or Photo-Issued ID

After making your ProctorU account, download the browser extension for either Chrome or Firefox and log into your account via the browser extension. After logging into the browser, you can access your exam in your course and proceed to the ProctorU startup sequences. As long as you are logged into the browser with your ProctorU account, you will not need an exam password or access code; the browser extension will automatically enter that information to open the exam for you.

Important: ProctorU recommends that you visit <https://test-it-out.proctoru.com/> to test your equipment prior to your proctoring session. We recommend you click on the button that says "Connect to a Live Person" to fully test out your equipment.

Important Notice for OSX Users: You will need to enable screen sharing in your browser **prior** to taking the exam.

If you encounter technical difficulties with your exam, you should contact ProctorU's 24/7 technical support via Live Chat or call 855-772-8678.

If you cannot access or obtain a webcam, please contact the Office of the Dean of Students for assistance.

Statement on Academic Integrity:

Academic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are working on. As a member of the NJIT community, it is your responsibility to protect your educational investment by knowing and following the academic code of integrity policy that is found at:

<http://www5.njit.edu/policies/sites/policies/files/academic-integrity-code.pdf>.

*Please note that it is my professional obligation and responsibility to report any academic misconduct to the Dean of Students Office. **Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/or suspension or dismissal from the university.** If you have any questions about the code of Academic Integrity, please contact the Dean of Students Office at dos@njit.edu.*
